**Sketch, but not copy!**

**Sketch, to develop your designs**

---

As homage to the passion of our founder Helmut Rhode for architectural design, we created the student "Helmut-Rhode Award". Despite CAD the craft did not lose any significance. On the contrary - as an instrument in the design process, we cannot envision something better... Whether rough, imperfect sketches or detailed, executing drawings - everything can be submitted. The only requirement: The drawing must be part of the design process.

The prize is endowed with a total of 5,000 Euros; Spread over a first prize and three recognition prizes. All students of architecture are welcome to participate.

An expert jury will evaluate the works (submitted by 4 October 2019).
